Apprentice Evaluation Instructions

Purpose:

An **honest** and thoughtful evaluation should pinpoint **strengths** and **weaknesses** and provide the opportunity to agree upon a practical improvement program. Our goal is to have each apprentice evaluated semi-annually to provide a history of development and progress.

Instructions:

Carefully read and evaluate each characteristics, trait or ability. Check the rating scale that most closely describes your observance of the apprentice's behavior.

- Written unsolicited evaluations are encouraged as unsatisfactory conditions exist.
- **Be honest in evaluations**
- Normally, the apprentice should not be shocked by the evaluation. A good supervisor counsels and praises employees **as the need arises**.
- **Review the evaluation with the apprentice, face to face** and have him/her sign it.

Be sure to list the specific areas you trained this apprentice (i.e., light fixtures, motors, ditch safety, conduit bending, etc.)
