- Energy Management Systems
- Intercom-signal Systems
- Telephone, Data, Video and Alarms
- Others

F. Start-up, Testing and Troubleshooting Electrical Systems

How to Complete the Work Card Report

Work card reports are due on the 1st of every month and are considered delinquent after the 15th of the month it is due. **Effective February 1, 2013, all work card reports require a supervisor/foreman's printed name and union card number.**

Enter the number of actual clock hours (including overtime) on each category worked during the month on the front of this report. You can use the blank calendar on the left of this page to track your daily hours.

Once you've entered the hours, on the front page, (1) be sure the sign the report and (2) have your supervisor/foreman verify your work hours by having them print their name & union card number in the space provided.

If you worked for more than one contractor during the month, you must complete a separate work card report for each one. Be sure that you enter the last day you worked at each contractor in the **"Work Hours for the Month of"** field.

You are required to complete a work card report even if you are not working (i.e., disability, leave of absence, etc.).
